

3. **Feature Extraction**: Feature Extraction **DataValidated** → **FeaturesReady**.
4. **Model Training Orchestrator**: Model Training Orchestrator **FeaturesReady** → **ML** → **ModelTrained**.
5. **ModelTrained**: **ModelTrained** → **ModelTrained**.
6. **Inference Engine**: **Inference Engine** API **Inference Engine** → **Inference Engine** → **Inference Engine**.
7. **Metrics & Logs**: **Metrics** **Logs** **Trace ID**.

6. **Team Structure**

Product Owner | **ML Engineer** | **Data Engineer** | **Backend Engineer** | **Rust Developer** | **Frontend Developer** | **DevOps Engineer** | **SRE** | **Security Engineer**

Product Owner | **ML Engineer** | **Data Engineer** | **Backend Engineer** | **Rust Developer** | **Frontend Developer** | **DevOps Engineer** | **SRE** | **Security Engineer**

ML Engineer | **Data Engineer** | **Backend Engineer** | **Rust Developer** | **Frontend Developer** | **DevOps Engineer** | **SRE** | **Security Engineer**

Data Engineer | **Backend Engineer** | **Rust Developer** | **Frontend Developer** | **DevOps Engineer** | **SRE** | **Security Engineer**

Backend Engineer | **Rust Developer** | **Frontend Developer** | **DevOps Engineer** | **SRE** | **Security Engineer**

Rust Developer | **Frontend Developer** | **DevOps Engineer** | **SRE** | **Security Engineer**

Frontend Developer | **DevOps Engineer** | **SRE** | **Security Engineer**

DevOps Engineer | **SRE** | **Security Engineer**

SRE | **Security Engineer**

Security Engineer

7. **Infrastructure & Security**

- mTLS **Istio**.
- OAuth2/JWT **OAuth2/JWT**.
- Network Policies **Network Policies**.
- Falco **Falco**.
- Vault **Vault** at rest.

8. **Observability & Security**

- Metrics: **OpenTelemetry** → **Prometheus**
- Dashboards: Grafana Heatmaps **Latency**
- Logging: JSON **ELK Stack**
- Tracing: Jaeger **Jaeger**
- Alerts: **SLOs** (CPU, Latency, Error Rate)

9. **Deployment & CI/CD**

Deployment & CI/CD | **Deployment & CI/CD** | **Deployment & CI/CD**

- 0 | Scaffolding & CI/CD | **Pipeline** **Kubernetes**
- 1 | Ingestion & Validation | ETL **Go** Data Validation **Kafka** setup
- 2 | Feature Extraction | **Rust** **Adapter** **Go**
- 3 | Training Pipeline | Orchestrator Python + MLflow + GPU scheduling
- 4 | Inference & API | Inference Engine Rust + API Gateway Go + Caching Redis
- 5 | Frontend & BFF | Web App TS + GraphQL BFF
- 6 | Observability & Sec | Prometheus, Grafana, ELK, Jaeger, Istio mTLS, Vault
- 7 | **Deployment & CI/CD** | **Deployment & CI/CD** | **Deployment & CI/CD**
